

Emba-Vento[®]

The inflatable air packaging system

Emba-Vento®

You ship a range of different products all being highly sensitive. This means that operating costs concerning handling and storage space need to be allowed. The products need to be shipped safely from A to B, and at the same time, the costs need to be competitive. With the Emba-Vento® system you eliminate your storage costs as if "into thin air". The final void of protection will be generated during the filling and packing process.

Emba-Vento® consists of 98% air.

The highest degree of protection and a quick handling are combined into one product: Emba-Vento® !

The Technique

The extremely quick handling of this system leads to a very short packing time.

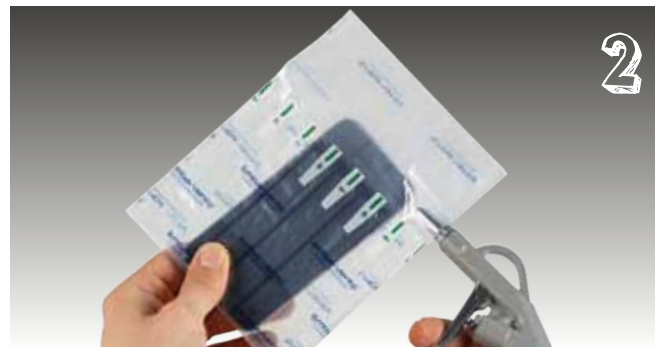

The packaging being empty of air guarantees an extremely efficient use of storage space.

Thanks to the one-piece inflatable packing system, Emba-Vento® completely protects your product in all scenarios. The only thing that is required is a supply of compressed air. On request we can supply you with a suitable mini compressor.

Emba-Vento® is suitable for a vast variety of different products.

The product is inserted into the pack ...

Start to fill the pack with air ...

The Emba-Vento pack is completely inflated ...

Product is completely protected and ready for dispatch!

Advantages

- High savings on material and handling costs
- Shock-proof
- Made-to-measure for your product (no set-up costs)
- Quick packaging process

Characteristics

- Complete protection
- One-piece inflatable air packaging system
- Proven standard range available
- Reusable
- Delicate goods from 0,5 to 5 kg

Benefits

- High savings on space
- Reduction of storage costs by up to 90%
- No additional filling material
- Variety of applications

Technique

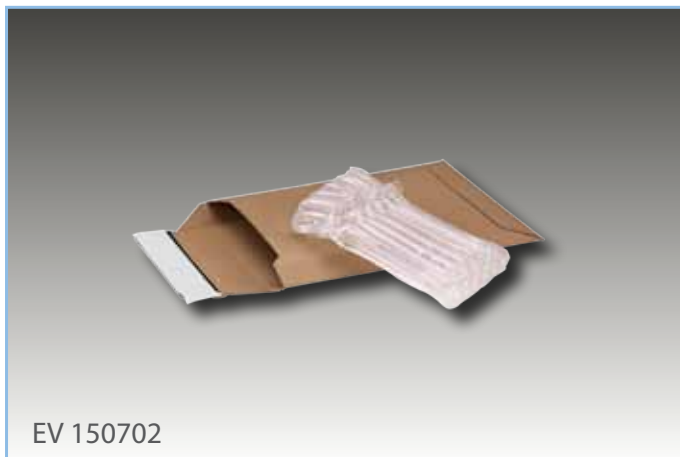

- Easiest handling
- Supply port of compressed air is sufficient
- Filling-in by hand or foot-operated switch

Environmental

- Optimized transport and storage costs
- Reusable
- Biodegradable on request
- Environmentally friendly
- Low volume of waste

The Standard Program

Product data

Overall transport box dimensions 245 x 175 x 30 mm
Cardboard envelope with self-adhesive closure
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **150 x 70 x 20 mm**

Applications: i.e. Smartphones

Product data

Overall transport box dimensions 349 x 154 x 108 mm
Fefco 0201 slotted-type box with top and bottom flaps
Quality: E 1.30
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **270 x 120 x 60 mm**

Applications: i.e. Circuit Boards, Small Appliances

Product data

Overall transport box dimensions 330 x 280 x 71 mm
Fefco 0427 hinged lid box with accessory compartment
Quality: B 1.30
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **270 x 180 x 20 mm**

Applications: i.e. Notebooks 10 Inch, Circuit Boards

The Standard Program

Product data

Overall transport box dimensions 349 x 179 x 128 mm
Fefco 0201 slotted-type box with top and bottom flaps
Quality: E 1.30
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **290 x 150 x 70 mm**

Applications: i.e. Circuit Boards, Small Measurement/Control Units

Product data

Overall transport box dimensions 356 x 226 x 152 mm
Fefco 0201 slotted-type box with top and bottom flaps
Quality: B 1.30
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **310 x 120 x 90 mm**

Applications: i.e. small Measurement/Control Units

Product data

Overall transport box dimensions 465 x 410 x 76 mm
Fefco 0427 hinged lid box with accessory compartment
Quality: B 1.40
Scope of delivery = Air Cushion 1 piece
Outer Box 1 piece

Maximum product size: **390 x 280 x 40 mm**

Applications: i.e. Notebooks 15 Inch, Circuit Boards

„Wrapped up quicker and
more clever than before.“ *

*Our packs are reusable. 😊
