## The method

- The special stretch mechanism fixes the product tightly to the corrugated cardboard.
- This avoids any slipping of the product.
- The highly flexible, practically tear-free stretch film adapts precisely to the contours of your product.
- The bottom cushion provides enough space for any type of stand.
- This method reduces your stock volume by up to 90%.

## Main Features

- Maximum protection for a variety of different products and contours
- Hollow bottom provides enough space
- Package conformity improved by up to 90%
- Reduction of process costs e.g. procurement, storage, shipment
- Environmentally friendly through easy disposal of the used packaging
- Re-usable
- Professional appearance
- Economies of scale through standardised production
