

PC-Boards

Application range
Embedded Systems

Features

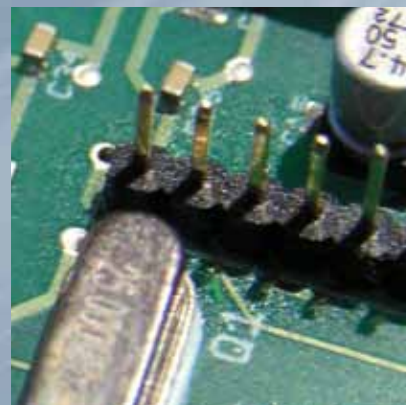

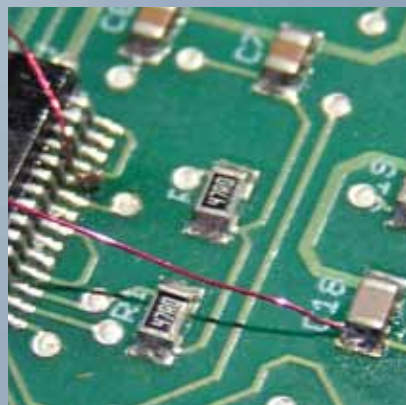

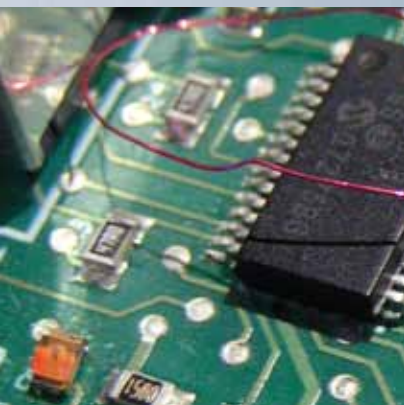

- Perfectly fitted packaging system for a wide range of circuit boards
- Available with anti static film and corrugated cardboard

Advantages

- Protected transport of high-value circuit boards
- Protection from electrostatic shocks
- Enhanced packaging speed
- Standardization of stock diversity
- Reduced stock volume

Benefits

- Proven packaging system
- Cost reduction
- Increased stock capacity

PC-Boards

Application range
Embedded Systems

The method

- The special stretch mechanism fixes the product tightly to the corrugated cardboard.
- This avoids any slipping of the product.
- The highly flexible, practically tear-free stretch film adapts precisely to the contours of your product.
- This technique reduces your stock volume by up to 90%.

Main Features

- High level protection for diverse product ranges.
- Enhanced packet conformity by up to 90%
- Boxes with crash-lock guarantee fast handling
- Reduction of process costs e.g. procurement, storage, shipment
- Environmentally friendly through easy disposal of the used packaging
- Professional appearance
- Economies of scale through standardized production

Tried and tested packaging solutions:

Distribution goods, max.	Item number
160 x 100 x 20 mm	FL161002ESDS
190 x 120 x 30 mm	FL191203ESQ
etc.	

We are happy to provide you with the optimal solution, customized to your packaging needs.
